

Humanities Rationale

We believe:

The central aim of the study of "Humanities" at Blue Gate Fields Infant School is to "**learn**" the knowledge and skills needed to promote an understanding of the world we live in.

To "**achieve**" this, effort, skill and courage by each individual child is implicit. This encourages the development of a sense of time; awareness to change within and beyond their own lives; appreciation of the world they live in; of climate; physical features; people and cultures.

Through this continual acquisition, children will "**grow**", spring up and develop a maturity to contribute to the ever changing world we live in.
