

Craft Club Activities

The 'Craft Club' was a big hit the last two terms. Children had the opportunity to complete mini craft projects in every session. They decorated pencil cases, experimented with scratch art, made puppets using the blanket stitch. They also made paper plate frisbees, learned how to fold simple origami projects and made cute animals out of air-drying clay! A highlight was when a child was told how much time they had left to 'finish their work', they responded with 'this isn't work, this is fun!'
