

**L1:** I am problem solving.

**Key Vocab:** first, next, then, altogether.

Monday and Tuesday: <https://vimeo.com/561394951>

Gather together a bucket and some of your favourite toys.

First, place a number of toys inside the bucket.

Then, ask a friend to add more toys or take some out while you watch.

Can you predict how many toys will be in the bucket now?

Will there be more or fewer?

Wednesday, Thursday and Friday: <https://vimeo.com/561411287>

Who could be in Mr Gumpy's boat if there are 8 legs altogether.

What if there are 6 legs or 10? Who could be in the boat this time?

I wonder if there could be 9 legs in the boat?

You could draw pictures to help you to work it out.
