

# Family Fun

Ideas to support learning, play and well-being

## Post it Maths

Help your child develop Maths skills in this simple fun way. Write out some sums on post its and stick onto the wall, door or floor, then write the answer on a large piece of paper (wrapping paper, wallpaper, cardboard box). Children chose a sum and cover the correct answer. Make up sums to practice addition, division, multiplication, and subtraction according to your child's ability

## Giant Nail Salon

Using cardboard or large pieces of paper draw around your hands and ask your children to draw around theirs, then get creative with felt tips crayons, paints, fabrics, glue, anything you have at home

## Reading Treasure Hunt

Get children active with this activity

1.Hide some small objects around the house; Lego figures, bricks, small sweets. 2.Write out clues to the hidden objects and place around the house. Children have 10 minutes to find the clue, read it and work out where the object is hidden and claim it. One with the most objects wins

## Fruit Kebab

Encourage children to snack healthily by letting them cut up and thread fruit onto kebab sticks. Delicious!
